

The Arab Street Department brush truck rotates each week
To a different section within the Arab City Limits (see map).
They pick up lawn clippings, tree branches, yard debris
& leaves placed by the roadside, & *they need your help*
In order to maintain a consistent route schedule.

These are some things the brush truck drivers need you to know:

- You are **NOT REQUIRED** to place leaves in bags.
- Leaves may be placed in a pile near the roadway, **AWAY FROM** all other roadside waste.
- Please **DO NOT** place leaves on top of brush.
- Place leaves **AWAY FROM** storm drains & culverts. This prevents *clogging of ditches & drainage areas*.

Don't let THIS.....turn into THIS
