City of Arab Street Department
Arab City Council Meeting
Re: Annual Notification of Rebuild Alabama Expenditures

The City of Arab received money from the Rebuild Alabama Gas Tax for the Fiscal Year 2023/2024. The money was utilized to pave the following:

- 12th Street NE
- City Park Drive
- 6th Street NE
- Copeland Road
- 2nd Street NE
- 5th Street NW
- 7th Street NE
- 6th Street SE
- 12th Way

These projects were completed prior to October 1, 2024 and total expenditure from the Rebuild Alabama Fund was \$121,686.87. The Annual Transportation Plan for 2023/2024 stated that 1st Avenue and Main Street from AL 69 to 12th Avenue would be paved. Unfortunately, those projects were put on hold due to the following reasons. Ongoing work by the Arab Water Works under 1st Avenue prevented that project from going forward; and the 12th Avenue widening project resulted in heavy truck traffic all along Main Street. Paving work on those two areas is planned for a future date.

A handwritten signature in black ink that reads "Helen S. Yarbrough".
